

IMAGING | DRONE ADVENTURE BACKPACK

This backpack will be your best companion on any drone adventure.

The Drone Adventure Backpack provides ample space for all your drone, DSLR camera, and travel necessities. It features a hard shell protection for your drone and camera gear. This bag turns easily from a daypack into a spacious travel backpack, by an expandable, 12 to 15 liter roll top compartment which holds clothes, food and other travel gear.

This backpack is designed to deliver the most comfort in any configuration. With ergonomic back padding and straps, it delivers the perfect weight balance to travel comfortably, no matter how remote your drone location is.
