FPV RACE QUADSTRAP for QUAD PITSTOP BACKPACK

The perfect addition to your QuadPITSTOP Backpack

At Torvol, we always jokingly say 'More quads, more better'. And apparently, we couldn't be closer to the truth. Listening to pilots' feedback made us realize - even more than before - that more is definitely better.

To emulate the external strap system of big brother Quad PITSTOP Backpack PRO, the Quad Strap was born. Now you can fill up your backpack and attach your (extra) quad to the outside of the Quad PITSTOP Backpack.

The Quad Strap is easy to attach and detach, so whether you pack heavy or want to rip light, your Quad PITSTOP Back pack is always ready for it.

Let's go race!

RRP (AUD)

\$19.95
